

RESIDENT WELCOME PACKET

A man with a beard, wearing a blue sweater over a collared shirt and dark pants, is kneeling on a gravel path. He is smiling and petting a black, shaggy dog that is sitting next to him. The dog is wearing a red collar. In the background, there is a snowy field and some trees.

HELLO

◀ Featuring **Hank**

My name is **Hunter** and I'm the program outreach manager at LocumTenens.com. I spend my time working with residency and fellowship programs, delivering career centered informational sessions and educating residents on the opportunities available to them after training. Locum tenens assignments can be a fulfilling and flexible path for finding work-life balance and more control over your career.

I'd love to share more about how locum tenens could be a good fit for you.

WELCOME

LocumTenens.com is the largest full-service locum tenens agency, placing more than 7,000 clinicians annually. With a presence in more than 90% of the nation's top healthcare facilities and covering more than 150 medical specialties, we place more clinicians than anyone else in the industry.

Our 900 associates are specialized in their part of getting clinicians placed and patients seen. We handle your job search and placement, from recruitment to travel and licensing and credentialing.

For the last 30 years, LocumTenens.com has been committed to placing medical professionals with the facilities that need them most.

WHO WORKS LOCUMS?

Career locums provider

These providers have built a career out of being a locum tenens physician. They gravitate towards the life balance, flexibility and control. They are comfortable working in different states and facilities and often find joy.

Supplementing full-time positions

This provider has a full-time W2 position but has found way to supplement his/her full-time pay with locum tenens assignments.

Right out of training

This provider recently completed training and is unsure where they want to sign their first perm contract. Locums allows this new provider to experience a variety of practice settings without long-term commitment.

STEPS OF AN ASSIGNMENT

01

SPEAK WITH A RECRUITER

Share your preferences with a recruiter. Have an ideal city or setting in which you want to work? Share with a recruiter and they will be on the case looking for your next assignment.

02

CV SUBMISSION

Once your recruiter identifies a position that is a fit, they will submit your CV with your approval to the facility for review.

03

INTERVIEW

If the facility is interested, they will schedule a phone or virtual interview for you to meet their medical team.

04

JOB ACCEPTED

If everything meets your expectations and the facility wants to move forward, you have the option to accept the offer.

05

CREDENTIALING

Once you have accepted the offer, our internal credentialing team will work to get you licensed and credentialed.

06

TRAVEL

Our internal travel team will work with you to get your travel preferences and book based on what you share.

SERVICES OFFERED

Credentialing and licensing

Our dedicated credentialing and licensing team will handle all of the details of your assignment, including working with facilities and state boards.

Exclusive benefits and support

Access to exclusive benefits including health insurance, financial planning and banking services. You'll also enjoy 24-hour support from our dedicated team and our companion mobile app, which houses all your assignment details and support information.

Travel

Our travel team will get your preferences and work on your behalf to schedule your travel for your upcoming assignment.
